**BROWN RUDNICK REPRESENTS
ENVIRONMENTAL TECHNOLOGIES FUND (ETF)
IN \$17 MILLION INVESTMENT IN CLEANTECH COMPANY
INDUSTRIAL ORIGAMI, INC.**

London, U.K., October 6, 2008 -- Brown Rudnick, a premier international law firm, acted for lead investor Environmental Technologies Fund (ETF) in connection with the recent \$17 million financing of Industrial Origami®, Inc. Industrial Origami will use the capital to support the commercialization of its patented, green suite of sheet metal manufacturing technologies.

Industrial Origami is breaking ground in manufacturing with new patented technology for designing and manufacturing with sheet materials. The technology enables Industrial Origami's customers to develop innovative products and reduce manufacturing costs, while enabling sustainable development through simplified and more efficient manufacturing processes, reduced materials and energy requirements and reduced scrap and waste.

ETF was created to provide entrepreneurs with a top-quality venture capital group in Europe dedicated solely to the cleantech industry. Brown Rudnick has represented ETF in several of its cleantech investments. The legal team on the financing was led by Mark Dorff, London Partner in the Brown Rudnick's European Venture Capital & Emerging Growth Practice and a member of the Firm's international Cleantech Team.

Facilitating access to seed and growth capital, Brown Rudnick represents investors and companies seeking financing. Clients include emerging growth companies, angel investors, strategic corporate investors, domestic and offshore venture capital funds, hedge funds, private equity funds, commodity pools and similar investment vehicles. London team members continue to define industry standards in the venture capital sector in the UK and across Europe. And as long-time supporters of both BVCA and EVCA, the firm has had the opportunity to contribute significantly to the development of this sector.

Last month, Brown Rudnick was awarded the prestigious Investor AllStars 2008 Service Provider of the Year Award which honors a specialist advisory firm serving the venture capital industry for its innovation, creativity and overall contribution in a venture financed deal. In early 2008, the Firm was named a finalist for a 2008 UK Technology Innovation & Growth Award by Library House in the category of "Technology Law Firm of the Year."
